

CELEBRATING FREEDOM

A day when we remember,
Our warriors, our freedom fighters,
That gave their lives for us,
On 15th August we remember them.

And that quote by Rani Lakshmi bai,
“I won’t give you my Jhansi”.
To remember Subhash Chandra Bose,
“Give me blood I give you freedom”.

There are many more people,
Who had shed their blood,sweat and tears.
So we can live freely today,
And continue the Bharatiya spirit for the days to come

Jai hind Jai Bharat

CELEBRATING FREEDOM

Freedom is not a gift to be given,
But a trophy to be taken .
Indians proved that a chilly August night,
When they learned that they won the fight.

Everyone helped in a way,
To make the future have a great day.
On August 15th celebrating isn't the only thing we should do,
Remembering the hero's is the another thing too.

The true spirit of celebrating freedom,
Is to remember the brave hearts who gave our kingdom.

And stood out in the lot.**

How they said our freedom was given,
But we should not value what was said,
Because all of it was taken.**

For our nation we care,
And people like them we never spare.**

**After all of this we are still on top,
While they sit around and mop.
We should have more passion,
For this our Mother our Nation.**

CELEBRATING FREEDOM

Celebrating freedom on independence day,
Cheerful, but responsibility blocks our way.

The day we got freedom we all sighed with relief,
And the British thought to slay,
Our motherland? What a belief!

The British did not make our nation any better,
They just made the stains of our tears,
Worsen and worsen all our fears.

But we fought against them and got justice,
The day left our nation went back to a bliss

Where we were in the kingdom.
People sacrificed their lives,
In hope that everyone else survives.**

Their families sadly cried.

And the people who protected us.**

Which fought of the British like it was poetry.**
